

# 2018 National Village Gathering Models for Living: Today and Tomorrow

Hyatt Regency Mission Bay, San Diego, CA October 7 - 10, 2018

### Hosted by Village to Village Network

Our Mission: The Village to Village Network is the essential tool that enables community members to build and sustain thriving Villages. The Network creates interactions that connect Villages with resources, education and expertise.

# **Call for NVG Presentations!**

This year is the 10th Annual National Village Gathering! In recognition of this milestone, we are celebrating the accomplishments of the Village Movement and the power of Villages to create positive, life affirming options for seniors. Villages provide opportunities to build social connections, be engaged in meaningful activities, continue using one's knowledge and experience, give and receive help when needed, and get assistance in navigating the challenges of life. Villages have led the way in opening up exciting new possibilities for how we are living our lives and changing the way we think about aging. The Gathering is an opportunity for you to share innovative ideas and highlight the effective practices that make your Village a success. We invite all Villages and organizations supporting Villages to share their expertise, research and best practices by submitting a presentation proposal to the VtV Network by APRIL 13, 2018. This document provides instructions and explanatory information to guide you through the proposal submission process.
